Monolayer Blown Film Machine Plant

Monolayer Blown Film Machine is the Right option are this equipment offers high speed production solution. It is an effective investment solution for packing sector as they can get back good on return what they spend.

Features of Biodegradable Bag Making Machine

PURPOSE SPECIFIC DESIGN

DURABLE FINISH STANDARDS

LONG WORKING LIFE

EASY MAINTENANCE

Biodegradable Bag Making Machine, India

BIODEGRADABLE BLOWN FILM

TECHNICAL SPECIFICATION

Two Layer Blown Film Plant

Top Business Listing & Manufacturer of Manual Two Layer Blown Film Plant, Two Layer Blown Film Plant, Semi Automatic Two Layer Blown Film Plant suppliers in India.

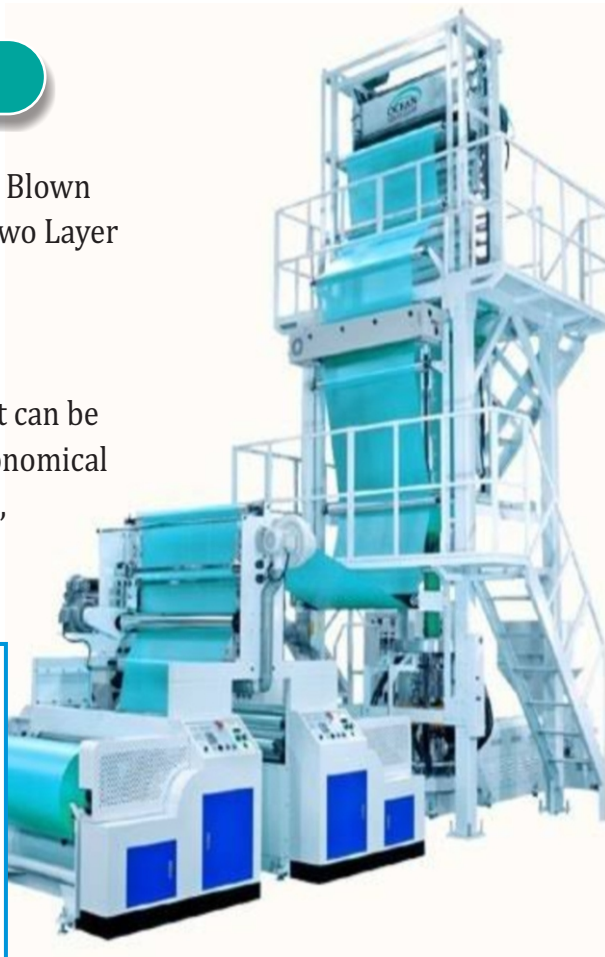

Two Layer Blown Film Machine has a great demand in global market for its wide range of Packaging Products that can be produced from it. Two Layer Blown Film Machine is an economical solution to create moderate barrier films for Shopping Bag, Crop Covers, Carry Bags used in textile section etc.

APPLICATION

- Film for Shopping Bags
- Film for Liners
- Stretch Films
- Lamination Films
- Biodegradable Films

FEATURES

- Manual as well as pneumatic screen changer
- Internal Bubble Cooling
- Automatic Bubble Cage online Thickness Monitoring
- Surface winders with taper Tension Control

Technical Specification of Two Layer Blown Film Machine

PRODUCT DESCRIPTION

Type of Bag	: Grain Bag & Shopping Bag
Usage / Application	: Bottom Sealing Machine
Automation Grade	: Fully Automatic
Country of Origin	: Made in India

Biodegradable Bag Punching Machine

PRODUCT DESCRIPTION

Motor Phase	: 3 Phase
Motor Power	: 2 HP
Country of Origin	: Made in India

Granules Mixing Machine

PRODUCT DESCRIPTION

Capacity	: 60-80 Hg/Hr
Usage / Application	: Industrial
Power Consumption	: 7.5 KW
